

ZIGZAG JAZZ

— PRACTICE SHEET —

First let's practice moving the RH between two positions. Watch for the arrows - they show when you change fingers on the same note!

Now learn the LH pattern - it repeats a lot so it's pretty easy!

You're ready to open up ZigZag Jazz where you'll put these two patterns together. Good luck!

For a fun improv activity, take the LH pattern and move it to F Major. Now add your RH in F Position as well and make up your own melody!
